### **New Orleans Inspector General Reports on Motorcycle Escorts**

Inspector General Ed Quatrevaux today released a report detailing an investigation into possible police misconduct in the collection of fees from truckers for oversized loads.

“The investigation determined that the allegations were unsubstantiated,” said Inspector General Quatrevaux. However, the investigation determined that there was frequent noncompliance by truckers, and revealed flaws in the City’s permit process that caused the City to lose revenue.”

The report made seven recommendations to correct deficiencies and improve performance, all of which were agreed to by City managers.

The entire report can be viewed and downloaded from the Office of Inspector General’s website at <http://www.nolaoig.org>.
