Re: Third-Party Inspectors with active residential and commercial contractors' licenses issued by the State

Dear Ms. Jackson:

As you know, the Director of Safety and Permits is authorized to register and approve Third-Party Inspectors to conduct inspections of work permitted by the City and performed by licensed contractors. The Director is also authorized to revoke this registration based upon a violation of the Third-Party Inspector provisions of the Building Code as described below:

Section 110.10(1) of the Building Code, under City Code Section 26-15, provides:

"No Company or individual may perform inspections on buildings or structures in which they have any direct or indirect financial or professional interest. Companies and individuals must disclose all parties with a legal, financial or beneficial interest at the time of registration and/or renewal."

"Any Company or individual holding a Louisiana license as a building, residential, or home improvement contractor is prohibited from registering as a Third-Party inspection service provider."

"Any Company or individual holding a New Orleans electrical or mechanical license is prohibited from registering as a Third-Party inspection service provider."

The City of New Orleans Office of Inspector General (OIG) believes that the following Third-Party Inspectors, registered with Safety and Permits, are currently in violation of Section 110.10(1) of the Building Code because they appear to have current and active commercial and residential contractor's licenses issued by the State as described below:

- Randy Farrell Sr, Commercial License Certificate number (CL.) 61365; Residential License Certificate number (RL.) 885794 doing business as (dba) Global Technical Solutions
- Christopher Marino Jr., CL. 10337; RL. 81638, dba Roman Builders Inc.
- Hoang Trong Do, CL. 75203; RL. 888862 (Pending) dba AMM Contractor LLC

The Director of Safety and Permits can revoke the registration of the above Third-Party Inspectors pursuant to Building Code Section 110.10(4)(d) for these violations of Section 110.10(1) of the Building Code.
