INTERIM ADMINISTRATIVE VEHICLE FLEET RECOMMENDATIONS REMAIN OPEN

The New Orleans Office of Inspector General today released a Follow-Up Report on its December 2008 Interim Report on the Management of the Administrative Fleet (the 2008 Report).

The follow-up revealed that the City did not implement the prior administration's promised corrections to three of the four recommendations in the 2008 Report. The City did not purchase an updated fleet management system, did not comply with increased departmental quarterly reporting requirements for City vehicles and did not perform a vehicle utilization study. The City complied with the recommendation to provide new and definitive policy guidance for use with City vehicles.

A subsequent follow-up on the status of these unresolved recommendations will be conducted in 2013.

The report is attached to this press release. Other reports issued by the Office of Inspector General can be viewed and downloaded from the website at <http://www.nolaoig.org>.
